Prakata

Standar ini merupakan revisi SNI 01-5010.5-2006 *Pendukung di bidang kehutanan – Bagian 5 : Nama kayu perdagangan*. Standar ini disusun sebagai bahan acuan nama kayu perdagangan di lapangan.

Perubahan yang terjadi dalam standar ini adalah dalam aspek:

- jumlah jenis kayu dari 204 jenis kayu menjadi 287 jenis kayu
- format tabel:
 - penghapusan kolom kode jenis
 - penambahan kolom nama perdagangan internasional
 - penambahan kolom nama famili
 - penambahan kolom keterangan
- penyesuaian nama beberapa jenis kayu

Standar ini disusun oleh Komite Teknis 79-01 Hasil Hutan Kayu yang telah dibahas dalam rapat teknis dan disepakati dalam rapat konsensus pada tanggal 8 Oktober 2015 di Bogor. Hadir pada rapat tersebut perwakilan dari regulator, pakar, produsen, dan konsumen.

Standar ini telah melalui proses jajak pendapat pada tanggal 16 Desember 2015 sampai tanggal 16 Februari 2016 dengan hasil akhir RASNI.

Perlu diperhatikan bahwa kemungkinan beberapa unsur dari dokumen standar ini dapat berupa hak paten. Badan Standardisasi Nasional tidak bertanggung jawab untuk pengidentifikasian salah satu atau seluruh hak paten yang ada.

Nama kayu perdagangan

1 Ruang lingkup

Standar ini menetapkan nama perdagangan, nama perdagangan internasional, nama botanis, nama famili, nama daerah dan nama di negara lain jenis atau kelompok jenis kayu yang diperdagangkan di Indonesia.

2 Istilah dan definisi

Untuk tujuan penggunaan dalam dokumen ini, istilah dan definisi berikut ini digunakan

2.1

nama botanis

nama ilmiah/nama latin jenis pohon yang diberikan oleh para ahli taksonomi tumbuhan

2.2

nama daerah

nama yang diberikan untuk suatu jenis kayu atau kelompok jenis kayu yang sudah dikenal, dimanfaatkan dan diperjual-belikan di suatu daerah tertentu

2.3

nama di negara lain

nama yang diberikan oleh negara lain terhadap jenis kayu atau kelompok jenis kayu untuk jenis kayu yang sama seperti pada pasal 2.1

2.4

nama famili

nama kelompok dari beberapa genus yang secara filogenetis terpisah dari famili lainnya. Pengelompokan famili berdasarkan klasifikasi taksonomi yang dilakukan oleh taksonomis

2.5

nama perdagangan

nama yang diberikan untuk jenis kayu atau kelompok jenis kayu yang diperdagangkan di Indonesia

2.6

nama perdagangan internasional

nama yang diberikan untuk jenis kayu atau kelompok jenis kayu yang sudah dikenal, dimanfaatkan dan diperjual-belikan secara internasional

2.7

sinonim

nama yang sepadan dan/atau nama lain yang digunakan terdahulu atas nama botanis atau nama ilmiah suatu jenis pohon

2.8

impor

barang yang dimasukkan dari luar negeri

2.9**hampir punah**

jarang ditemukan dan telah masuk kriteria hampir punah dalam lampiran CITES (*Convention on International Trade in Endangered Species*)

3 Singkatan
